Message from the Editor

Hello All and welcome to the Feb Crabrag. The Meeting was held at the Severna Park Community Center. What a nice place easy access and pleasant people. The Meeting Came to order at 7:30 Some Old business was discussed, most important was the Dues increase. The most important Item at this months meeting

was the presentation about Gas Planes at CBRC, Andy Smith was the Chairperson with the help of Jim Tomchik and Cliff Haley. And a special Thanks to Brian Dean as test pilot. The presentation Andy gave was very good and with the help of Jim putting it in power point presentation was a success.

The new rules are: Gas Planes are allowed up to 62cc gas motors. The weight rule has been dropped as the motor size will determine the weight. The most important item will be that it must pass a sound test of 95 DbA and all AMA rules must be followed.
