Fun Fly Report

There is nothing to report.

That's not quite right. The event director was less than diligent in advertising the event resulting in a non-event. There were folks at the field at 1000 Saturday morning but none were interested in a Fun Fly. I even asked if laughter would result if I called for a pilots meeting and was greeted with silence.

Not to be deterred, I'll approach this from another angle. I'm going to ask the members to respond to a poll whether or not they are interested in 1) having a Club Fun Fly and 2) if they answered yes to 1, participate. My threshold is going to be ten respondents in the affirmative. Ten or more and we'll give it another try.
